

INFINITE SAFETY

Knuffi[®] W, B+, Magnetic

New

New Flexible and secure.

Type W

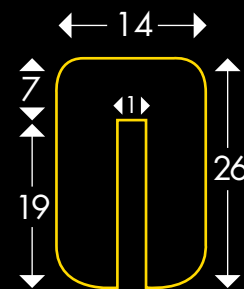

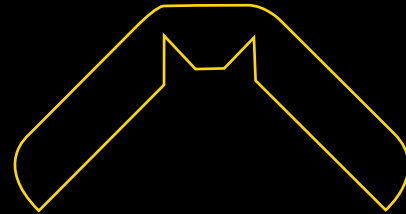

Knuffi® Eckschutz Typ W: Für maximale Flexibilität.

Ob in Logistiklager, Parkhaus oder Werkhalle: Knuffi W ist das richtige Produkt, um selbst ganz scharfe Kanten zu sichern und Mensch und Maschine vor Schäden zu schützen. Das innovative Eckschutzprofil passt sich flexibel Winkelgrößen an und kann dadurch selbst bei Klemmbereichen zwischen 0,5 mm und 1 mm passgenau befestigt werden. Knuffi W besteht aus dem bewährten Polyurethanschaum, der aufgrund seiner elastischen Beschaffenheit selbst härteste Stöße absorbiert. So werden Mitarbeiter, Gebäude und Inventar zuverlässig geschützt.

Knuffi® Corner Protection Type W: For maximum flexibility.

Whether in a warehouse, parking lot or workshop, Knuffi W is the right product to ensure sharp edges are no longer hazardous to people and machinery is protected from damage. The innovative edge protection profile is flexible enough to fit over a variety of corners and can cover sharp edges ranging from 0.5 mm to 1 mm. Knuffi W is made from time-proven polyurethane foam that has enough elasticity to absorb even the hardest bumps, providing reliable protection for people, equipment and building surfaces.

Type B+

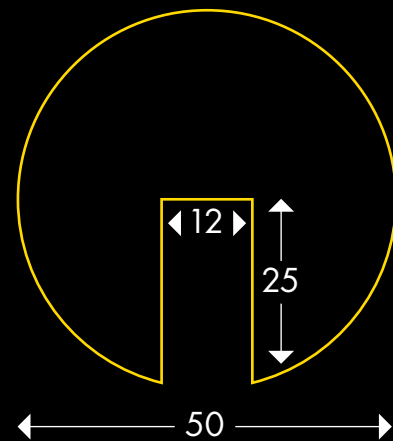

Knuffi® Kantenschutz B+

Den bewährten Knuffi Kantenschutz B gibt es jetzt auch als Profil B+: Damit werden Kanten mit einem Klemmbereich von 12 mm effektiv und langfristig gesichert. Das Profil B+ kann vielfältig eingesetzt werden: auf innerbetrieblichen Transportwegen, an Maschinen und Fahrzeugen oder an U-Trägern und Durchgängen im Innen- und Außenbereich.

Knuffi® Edge Protection Type B+

The tried-and-tested Knuffi Edge Protection Type B is now also available as a larger profile B+ to fit up to a 12 mm hazardous edge. The B+ profile will work well in a variety of applications: on in-plant traffic routes, machinery, vehicles, structural beams and passageways, both indoors and outdoors.

New Magnetic and movable.

Type Magnetic

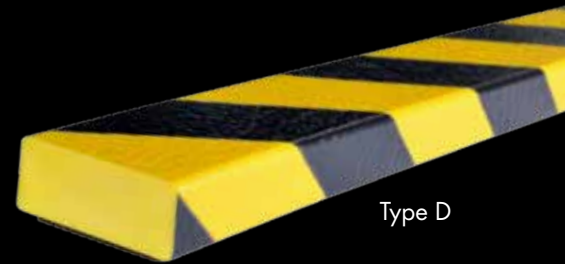

Knuffi® Magnetic: Wenn Schutz mobil sein muss.

Für einen bestimmten Arbeitsprozess soll eine Gefahrenzone schnell und temporär gesichert werden? Hierfür bietet Knuffi Magnetic die Lösung: Mit den neuen Magnetprofilen werden Bereiche von Gebäuden, Werkhallen oder Maschinen kurzfristig und flexibel gesichert. Durch die Magnetfläche auf der Unterseite des Profils kann Knuffi Magnetic bei Bedarf schnell und einfach angebracht – und genauso schnell wieder abgenommen werden. Das ermöglicht zuverlässigen und beweglichen Schutz von Menschen, Maschinen und Gegenständen. Knuffi Magnetic ist als Flächenschutz für die Profile D und F sowie als Eckschutz für die Profile A und E erhältlich.

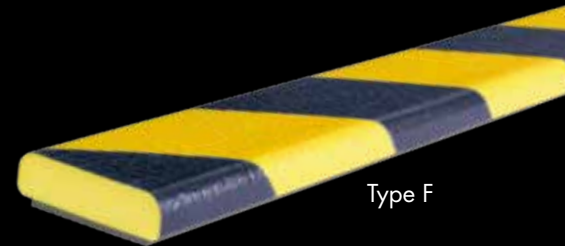

Knuffi® Magnetic: When temporary protection is critical.

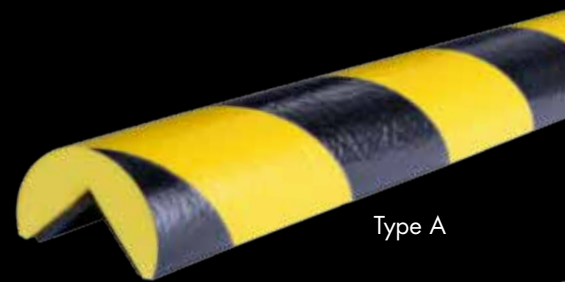

Does a dangerous area need to be quickly or temporarily made safer? Knuffi Magnetic offers the solution! The magnetic surface on the underside of the profile allows Knuffi Magnetic to be installed quickly and easily where required – and to be removed just as quickly and easily, providing reliable and temporary protection for people, equipment and building surfaces. Knuffi Magnetic is available as surface protection for profiles D and F, and as corner protection for profiles A and E.
