Lighthouse for MAX 10

Powered by

Loftware NiceLabel

Designer

Lighthouse for MAX 10 Designer software delivers an enhanced user experience that enables anyone to quickly design labels.

Design aspects and data functions are all in one place for improved label creation. An updated clipart gallery now containing thousands of graphical elements, new drawing and cutting features and an improved inverse tool, allows users to create professional looking labels.

For existing V6 users upgrading to Lighthouse for MAX 10, our support team can convert your existing label files to ensure you don't lose any of your previous work.

Designer + PowerForms

Add PowerForms to the Lighthouse for Max 10 Designer software to streamline compliance labelling such as, pipe markers and GHS labels. PowerForms not only comes with a range of pre-loaded compliance labels but also allows users to create their own and add these to the library.

PowerForms combines the reliability of the Lighthouse for Max 10 Designer software with the intuitive applications of NiceLabel PowerForms Suite to offer unique and bespoke label solutions.

Additional software services are also now available from Lighthouse including, Cloud-based services and bespoke integration solutions. Speak to one of our software experts for more information.
