

## Safe To Cross The Zone

- ✓ No material handling equipment around.

PJ 1: **ON pedestrian crosswalk.**

PJ 2: **OFF STOP sign.**

## Forklift Is Approaching The Zone

- ✓ Forklift is approaching towards the crosswalk.
- ✓ Optional: magnetic lock of safety gate & optic light signalization.

PJ 1: **OFF pedestrian crosswalk.**

PJ 2: **ON STOP sign.**

## Smart Intersections

The highly visible LED-illuminated walkways increase the level of operational safety for pedestrians.

Smart LED floor walkways are designed to be wirelessly controlled and activated by the movement of forklift trucks or pedestrians.

In case of no danger - pedestrian crossing is turned on, in case of approaching forklift warning STOP symbol is switched.

## Automated Walkways

- ✓ Walkway signs of up to 6 m long (per 1 LED projector).
- ✓ Yellow/white/green colors or custom design.
- ✓ Possible to combine with other designs ex. warning forklift/STOP signs.
- ✓ Intelligent control of pedestrian crosswalks by sensors or wireless technology.
