MEET THE DEMANDS OF YOUR LABELLING JOBS

WITH STRAIGHTFORWARD FEATURES THAT GET THE JOB DONE

Purpose-built with your job in mind:

► Mid- to high-volume printing

► Durable aluminum body

► Print speeds up to 254 mm/sec

► 300 dpi resolution

► ZPL emulation

► 9 cm (3.5") full-colour LCD display

i6100 ► READY FOR ANYTHING THE JOB THROWS AT IT

STANDARD MODEL

Print on a wide variety of material offerings to meet the needs for everything from moderate to high-performance labelling

PEEL MODEL

Printed labels can be partially peeled off the liner for easy removal or internally rewound onto an empty core for easier roll handling after printing.

IDEAL FOR A VARIETY OF APPLICATIONS

MANUFACTURING

► Traceability solutions to optimise recall management

► Meet serialisation standards to keep supply chains moving

► Parts labelling, quality control checks and inspections reports

PRODUCT ID

► End-to-end labelling for content packaging

► Enhanced component sourcing

► Wide variety of materials

WIRE ID

► Label everything from small wires to entire cable harnesses

► Organise and identify complex networks in datacom and telecom environments

► Panel markers for rating plates and backer board identification

Print with confidence on labels designed for durability
